

• Optical Fiber
Laser Cutting

We have fiber optic laser cutting technology.

The flexibility of our system together with our software allows to handle opened or closed tubular profiles with fully automatic work cycles and perform precise cutting in complex designs.

Capacity processing		
Characteristics	Description	
Material	Hot Rolled Material, Hot Rolled Pickling, Cold Rolling, Galvanized And Aluminized.	
Thickness	.0239" - 0.1793"	
Capacity	3200 mm - 6500 mm	
Package weight	4 Ton	
Tube Length	Specified Length	Tolerance
	5 - 4500 mm	-.25 / +.25 mm
Guages	Tube	0.500" Min. - 5.5" Max.
	Square	0.500" x 0.500" Min. - 3" x 3" Max.
	Open profile	Under feasibility analysis*
	Rectangular	0.400" x 0.500" Min. - 4" x 3" Max.
